

DETAILED HIGHWAY INVENTORY LISTINGS - Description of Data Headings and Codes

Reg	NYS Dept. of Transportation (NYSDOT) Region number
County	Name of the county
DOT ID	Used by NYSDOT as a unique reference for a particular route or road
Route	Route number for State routes
Co Rd	County Road number
Name	Road name
From	Description of the beginning of a segment of road
To	Description of the end of a segment of road
Co Ord	Number of counties traversed since the beginning of the route; only relevant for State routes - all others have a county order of "1"
Beg	Milepoint of the beginning of a route or road (each route begins at "0" within a county)
End	Milepoint of the end of a route or road; for the first (or only) segment of a road, the end MP is equal to the length of the segment
Length	Length of a route/road segment to the hundredth of a mile
Muni Code	NYSDOT code representing a municipality
Muni Type	Type of municipality (town, city, village) in which the road segment is located
Municipality	Name of the municipality
Jurisdiction	Jurisdiction or owner of the segment of road
FC	Functional Classification - a means by which roads are classified according to the type of service they provide
UAC	Urban Area Code; Urban areas are designated by the US Census Bureau based on population density
NHS	National Highway System; a system of nationally significant roads as designated by NYSDOT and the Federal Highway Administration (FHWA); codes 2-9 are various categories of Intermodal Connectors
Overlap #	Identifies routes/roads that share the same pavement such as an overlap of two State routes or a State route on a county road or city street; an "R" signifies that at least one of the routes or roads runs in the reverse direction from the others in the overlap
Olap rank	To prevent double counting road mileage, overlaps are ranked in a hierarchy; overlap pieces with a rank higher than 1 are not counted when calculating mileage totals
HPMS	Segments used as statistical samples for reporting to the Federal Highway Administration via the Highway Performance Monitoring System
SH No	State Highway number; a NYSDOT designation for a specific segment of pavement which is or was formerly state-owned
Lanes	Number of lanes in the road segment
Pvmnt	Type of pavement: A-Asphalt, O-Overlay, C-Concrete, U-Unpaved
Divided	Divided highway
One Way	One way street
Pkwy	A route designated as a Parkway from which trucks are typically prohibited
Grouped	A record which shows total mileage in a category but not necessarily individual roads
Disc	Discontinuous - Indicates a route or road which is not continuous
Station	Traffic count station number
AADT	Annual Average of Daily Traffic
AADT Yr	Year of the count from which the AADT was estimated
